GIS : A Computer Science Perspective

Michael F. Worboys

GIS : A Computer Science Perspective Michael F. Worboys

This aims to make the computing principles underlying geographic databases understandable and accessible to current and potential users of such systems. It overviews database system philosophy; describes database concepts eg storage, retrieval, architecture, conceptual modelling, and database querying. It then focuses on the characteristics of GIS, spatial data and spatial databases, concluding with a discussion of current/future research trends.
