## **Going Public** Nicholas Hartlep

Join Nicholas on an excursion into the questions of school, society, and the unseen oppression and privilege they provide in relation to critical race theory and issues of social justice. You'll discover startling realities about minorities' disadvantages in the public school system and uncover the long journey to revamping school curricula for equality. After *Going Public*, you'll never think about schools and society in the same way again. *We must all come to consensus that school curriculum is the vehicle that serves to unite or divide our nation and our schools, and teaching or advocating for social justice in schools is an attempt to make democracy a verb and not a noun. -William Ayers*
