Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) Sanjoy Mahajan, Carver A. Mead

In problem solving, as in street fighting, rules are for fools: do whatever works -- don't just stand there! Yet we often fear an unjustified leap even though it may land us on a correct result. Traditional mathematics teaching is largely about solving exactly stated problems exactly, yet life often hands us partly defined problems needing only moderately accurate solutions. This engaging book is an antidote to the rigor mortis brought on by too much mathematical rigor, teaching us how to guess answers without needing a proof or an exact calculation. In *Street-Fighting Mathematics*, Sanjoy Mahajan builds, sharpens, and demonstrates tools for educated guessing and down-and-dirty, opportunistic problem solving across diverse fields of knowledge -- from mathematics to management. Mahajan describes six tools: dimensional analysis, easy cases, lumping, picture proofs, successive approximation, and reasoning by analogy. Illustrating each tool with numerous examples, he carefully separates the tool -- the general principle -- from the particular application so that the reader can most easily grasp the tool itself to use on problems of particular interest. Street-Fighting Mathematics grew out of a short course taught by the author at MIT for students ranging from first-year undergraduates to graduate students ready for careers in physics, mathematics, management, electrical engineering, computer science, and biology. They benefited from an approach that avoided rigor and taught them how to use mathematics to solve real problems. *Street-Fighting Mathematics* will appear in print and online under a Creative Commons Noncommercial Share Alike license.

From reader reviews:

Jeffrey Brill:

This Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) tend to be reliable for you who want to be a successful person, why. The reason of this Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) can be on the list of great books you must have is giving you more than just simple studying food but feed anyone with information that possibly will shock your previous knowledge. This book will be handy, you can bring it everywhere and whenever your conditions in the e-book and printed people. Beside that this Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day task. So , let's have it appreciate reading.

Janelle Smith:

The particular book Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of gain. The book was authored by the very famous author. The author makes some research previous to write this book. This specific book very easy to read you can obtain the point easily after looking over this book.

Rosemary Lilly:

This Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) is great reserve for you because the content that is certainly full of information for you who also always deal with world and have to make decision every minute. This specific book reveal it information accurately using great arrange word or we can state no rambling sentences within it. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but challenging core information with splendid delivering sentences. Having Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press) in your hand like finding the world in your arm, details in it is not ridiculous one. We can say that no e-book that offer you world within ten or fifteen second right but this book already do that. So , this really is good reading book. Hi Mr. and Mrs. occupied do you still doubt which?

Diana Johnson:

A lot of guide has printed but it is different. You can get it by online on social media. You can choose the most effective book for you, science, comedian, novel, or whatever through searching from it. It is identified as of book Street-Fighting Mathematics: The Art of Educated Guessing and Opportunistic Problem Solving (MIT Press). You can include your knowledge by it. Without departing the printed book, it may add your knowledge and make anyone happier to read. It is most critical that, you must aware about guide. It can bring

you from one destination for a other place.
