La identidad: Historias reales del ADN (Spanish Edition) Viviana Bernath

Hace meses que Fabián está de novio con Marcela, una chica de 22 años que le ha permitido volver a sentir el amor y la vitalidad de su juventud. La relación se va afianzando, hasta que la madre de la joven irrumpe en la escena. No solo es un antiguo amor de Fabián, sino que siembra una terrible duda: él podría ser el padre biológico de Marcela. Para desentrañar la verdad no bastan las palabras de quien ha mentido durante tantos años; solo una prueba de ADN le dará a la pareja la respuesta, a partir de la cual ambos podrán decidir el rumbo de sus vidas.

El descubrimiento de la prueba de ADN transformó radicalmente la vida de las personas en el siglo XX. Pero, así como la prueba es contundente, demuestra también que la identidad no se limita a la filiación. A las preguntas de quiénes somos y de dónde venimos se suman hoy cuestionamientos sobre cuáles son los verdaderos vínculos familiares, hasta dónde las pruebas científicas modifican los sentimientos de las personas, cuál es el límite entre la seguridad y la intimidad. Se trata de un libro apasionante y conmovedor que abre un debate necesario.
