Cavalry: The history of mounted warfare

John Ellis

Cavalry: The history of mounted warfare John Ellis

The author explores in detail the history of mounted warfare which in reality is a history of war itself. For over 3,000 years the mounted warrior was a dominant figure, mobility and speed of the horse were invaluable, and the charge itself often the defining moment of any battle. The author has gone to great lengths to make this a highly readable, well researched, beautifully illustrated history. This book will delight everyone interested in military history and those who are thrilled by the special 'romance' of the horse in warfare.
