Criteria (Dose/Effect Relationships) for Organochlorine Pesticides: Report of a Working Group of Experts Prepared for the Commission of the European Communities, ... Affairs, Health and Safety Directorate M. Mercier

Criteria (Dose/Effect Relationships) for Organochlorine Pesticides presents the effect of organochlorine compounds on the immunological processes. This book deals with several organochlorine pesticides.

Organized into 15 chapters, this book begins with an overview of the properties and toxicology of dichlorodiphenyl trichloroethane (DDT), a potent non-systemic stomach and contact insecticide of high persistence on solid surface. This text then examines the absorption, metabolism, and excretion of lindane in laboratory animals and in humans as well. Other chapters consider the studies on the carcinogenic potential as well as the mutagenic effects of dieldrin. This book discusses as well the metabolism and pharmacokinetics of endrin, which is a non-systemic and persistent insecticide used primarily on field crops. The final chapter deals with the need for further evaluation of any possible long-term risks to humans from the production and use of the technical product.

This book is a valuable resource for agriculturists and research workers.

From reader reviews:

Maria Asbury:

Information is provisions for anyone to get better life, information today can get by anyone with everywhere. The information can be a information or any news even a problem. What people must be consider if those information which is from the former life are difficult to be find than now could be taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you find the unstable resource then you have it as your main information there will be huge disadvantage for you. All those possibilities will not happen throughout you if you take Criteria (Dose/Effect Relationships) for Organochlorine Pesticides: Report of a Working Group of Experts Prepared for the Commission of the European Communities, ... Affairs, Health and Safety Directorate as the daily resource information.

Martha Silva:

Reading a e-book tends to be new life style in this era globalization. With examining you can get a lot of information that could give you benefit in your life. Having book everyone in this world could share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their own reader with their story or perhaps their experience. Not only the storyplot that share in the books. But also they write about the information about something that you need example of this. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on this planet always try to improve their skill in writing, they also doing some investigation before they write on their book. One of them is this Criteria (Dose/Effect Relationships) for Organochlorine Pesticides: Report of a Working Group of Experts Prepared for the Commission of the European Communities, ... Affairs, Health and Safety Directorate.

Belinda Tenney:

Playing with family in a very park, coming to see the water world or hanging out with close friends is thing that usually you may have done when you have spare time, then why you don't try thing that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Criteria (Dose/Effect Relationships) for Organochlorine Pesticides: Report of a Working Group of Experts Prepared for the Commission of the European Communities, ... Affairs, Health and Safety Directorate, you could enjoy both. It is fine combination right, you still desire to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its referred to as reading friends.

Harry Alvey:
