## Studies of the Holocaust: Lessons in Survivorship

It has been more than sixty years since the end of World War II and the liberation of the survivors of the Holocaust. Since then, many rich personal and historical accounts have been written of the horrific events of those times. Mental health workers have strived to give survivors solace for their loss, and help them return to a meaningful life. Meanwhile, scholars continue to ponder the inexplicable facts of genocide.

Yet *Studies of the Holocaust: Lessons in Survivorship* continues to be timely. Based on more than 100 interviews in nine U.S. locations, the book offers a powerful view of survivors' hope, determination, and resilience. Study questions elicited survival strategies, and revealed how, following the war, survivors overcame the horrors of the Holocaust, formed families, built careers, and gave to their communities. Survivor quotes taken from these interviews illuminate how the survivors maintained competence into old age.

While memories of pain persist, accomplishments are acknowledged, and provide lessons for students of human development, mental health practitioners, and the general public.

This book was previously published as a special issue of *Journal of Human Behaviour and the Social Environment*.
