He proves it in this accessible guide to cartooning, offering beginners and professionals a complete manual for working in one of the world's liveliest art forms.

Briefly tracing the origins of cartooning, Nelson goes on to furnish tips for using proper tools and techniques; drawing the human figure, animals, and backgrounds; composing; doing gag cartoons, comic strips, and panels; creating editorial and advertising cartoons; and much more. Accompanying the easy-to-follow directions are seventy-five illustrations, including many of the author's own.
