## **2012 First Place AJN Book of the Year Award Winner in Nursing Research!**

"This is a resource for success and should be a part of any researcher's library."--**Doody's Medical Reviews**

This book is a practical, user-friendly guide for health care researchers across multiple disciplines who are involved in intervention research. It provides all of the essential elements needed for understanding how to design, conduct, analyze, and fund intervention studies that are replicable and can withstand the scrutiny of the Institutional Review Board and peer review. Developed from an annual continuing education workshop on intervention studies conducted by Dr. Melnyk, this text is the most comprehensive body of information available on this topic.

Contributors address the design of interventions that are ethically considerate and sensitive to culture, race/ethnicity, and gender, minimizing threats to external and internal validity, measurement, and budgeting. The guide explores such implementation issues as subject recruitment and retention, data management, and specialized settings, cost analysis, and explaining intervention effects. The text also guides readers in writing grant applications that fund , and addresses how to move intervention study findings into the real world. A unique addition to the book is the availability of digital examples of progress reports, final reports, and research grant applications that have received funding from the National Institutes of Health and other relevant organizations. This text is a valuable resource for all health care professionals conducting research and for doctoral students in health care studies.

### **Key Features:**

Includes digital examples of funded research grants, progress reports, and final reports

**From reader reviews:**

Karla Walker: Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite guide and reading a guide. Beside you can solve your trouble; you can add your knowledge by the guide entitled Intervention Research: Designing, Conducting, Analyzing, and Funding. Try to make the book Intervention Research: Designing, Conducting, Analyzing, and Funding as your friend. It means that it can to become your friend when you really feel alone and beside that course make you smarter than ever. Yeah, it is very fortuned for you. The book makes you more confidence because you can know almost everything by the book. So , let me make new experience in addition to knowledge with this book.

Brenda Seddon: It is possible to spend your free time to study this book this guide. This Intervention Research: Designing, Conducting, Analyzing, and Funding is simple to bring you can read it in the playground, in the beach, train and also soon. If you did not have got much space to bring typically the printed book, you can buy the e-book. It is make you simpler to read it. You can save often the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Adelina Foreman: You may get this Intervention Research: Designing, Conducting, Analyzing, and Funding by go to the bookstore or Mall. Just simply viewing or reviewing it may to be your solve problem if you get difficulties for your knowledge. Kinds of this book are various. Not only by written or printed but in addition can you enjoy this book by means of e-book. In the modern era such as now, you just looking because of your mobile phone and searching what your problem. Right now, choose your own personal ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose right ways for you.

Rosa Milliken: Reading a book make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is created or printed or outlined from each source which filled update of news. Within this modern era like now, many ways to get information are available for an individual. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just searching for the Intervention Research: Designing, Conducting, Analyzing, and Funding when you required it?
