Early Vascular Aging (EVA): New Directions in Cardiovascular Protection

Early Vascular Aging (EVA): New Directions in Cardiovascular Protection brings together the last decade of research related to the characterization of EVA, as well as the predictive power of pulse wave velocity (PWV).

The book presents a novel approach to the problem of cardiovascular disease, showing it in relation to great vessels disease and revealing a comprehensive approach to the problem of increased rigidity of the great vessels, its causes, and further consequences.

Information provided is accompanied by online access to a supplemental website with video clips of anatomic specimens, cardiac imaging, and surgical procedures.

- Introduces the latest information on early vascular aging (EVA), complete with summaries of recent evidence and guidelines for relevant risk factor control
- Ideal reference for the study of vascular aging, pulse wave velocity, arteriosclerosis, EVA, arterial stiffness, vascular, PWV biomarkers, and cardiovascular disease
- Contains all the relevant information available from different fields of knowledge (from basic biology to epidemiology) in regard to EVA
- Provides evidence that leads to a new target for interventions, early vascular aging (EVA) in subjects with early onset increased arterial stiffness
- Includes online access to a supplemental website with video clips of anatomic specimens, cardiac imaging, and surgical procedures

From reader reviews:

Barbara Clarke:

What do you with regards to book? It is not important with you? Or just adding material when you want something to explain what the one you have problem? How about your time? Or are you busy particular person? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Everybody has many questions above. They must answer that question because just their can do in which. It said that about reserve. Book is familiar in each person. Yes, it is correct. Because start from on pre-school until university need this particular Early Vascular Aging (EVA): New Directions in Cardiovascular Protection to read.

Tina West:

As people who live in the particular modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era which is always change and move ahead. Some of you maybe will probably update themselves by looking at books. It is a good choice for you but the problems coming to you is you don't know which one you should start with. This Early Vascular Aging (EVA): New Directions in Cardiovascular Protection is our recommendation to help you keep up with the world. Why, as this book serves what you want and wish in this era.

Clement Williams:

As we know that book is significant thing to add our knowledge for everything. By a book we can know everything we wish. A book is a list of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This publication Early Vascular Aging (EVA): New Directions in Cardiovascular Protection was filled regarding science. Spend your free time to add your knowledge about your research competence. Some people has several feel when they reading the book. If you know how big benefit of a book, you can really feel enjoy to read a e-book. In the modern era like now, many ways to get book you wanted.

Nancy Byrom:

As a college student exactly feel bored to be able to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just little students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful images on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Early Vascular Aging (EVA): New Directions in Cardiovascular Protection can make you experience more interested to read.
